ANDAMANS FOR US

This one is for all the water babies out there. If you love the beaches, then this is the place to be. Crystal-clear turquoise waters are a rare thing in India, but Andaman is different. The calmness of the beaches mixed with the tons of adventure activities that you can do here makes for a splendid vacation and exploring it with strangers is the best part. We have done Scuba at multiple destinations in India, but nothing beats Andamans when it comes to exploring marine life. The palm-fringed beaches with white sand all around are where we like to be when we look for uninterrupted peace. On the flip side, if you are looking for a place to party by the beach then you have that as well. A complete beach package indeed. This location is meant to cheer you up, no matter how dull you feel before the trip. Come, let's go and dip all our worries away.
